CityRatings.PeopleForBikes.org

1 Hold a monthly social ride for new bikers. Choose flat, quiet routes and travel slowly. Count attendees.

2 12-24 months: Create a Vision Zero policy with measurable goals and a clear timeline. Measure current safety to create a baseline.

3 12 months: Install a small network of neighborhood bikeways by improving a few residential streets. Count bikes before and after.

4 Implement one pop-up event or pilot bikeway project this year using temporary material: paint, planters, pallet furniture. Count attendees.

5 12 months: Build a diverse mobility advisory team. Prioritize people in underserved or fast-changing areas. Identify those not at the table.
